PROFESSIONAL SUMMARY

Aspiring IT professional with a passion for web development, data analytics, and digital operations. Skilled in building responsive websites and managing databases using PHP, JavaScript, and SQL, analyzing data with Excel, and producing digital content using Canva. Detail-oriented and adaptable, with strong organizational, communication, and project coordination skills. Able to contribute effectively in team-based and collaborative settings.

WORK EXPERIENCE

Freelance Web Developer

Self-Employed | Aug 2025 – Dec 2025

- Designed and maintained responsive websites and web applications using HTML, CSS, JavaScript, PHP, and MySQL.
- Integrated backend features, including PayMongo API for secure payment processing.
- Ensured websites were optimized for performance, accessibility, and mobile responsiveness.
- Communicated with clients to gather requirements, provide updates, and address inquiries.

IT Intern

P.C.M Cosmetic Products Trading | Feb 2025 – May 2025

- Contributed to the development of internal systems and websites, including an intern DTR system with automated summary reports, using HTML, CSS, JavaScript, PHP, and MySQL.
- Created digital content for marketing and promotional campaigns and helped manage company and team social media pages using Photoshop and Canva, enhancing online engagement and brand visibility.
- Assisted in software and hardware maintenance, troubleshooting, and system setup, ensuring smooth daily operations for staff and interns.
